

The concerned methodology lecturers demonstrate each skill. They select topics for different lessons and form groups in writing and performing or practicing the same which enhances decision making and confidence among the students who are also encouraged to reflect on their performance and learning. It is done prior at college level under simulation sessions which are implemented during internship. Impact of teaching during formative period inculcates life skills and values such as lifelong learning, leadership, teamwork, ethical awareness and reasoning, digital literacy, sense of inquiry with scientific reasoning, empathy by connecting to real life. It engages them in reading and reflecting on texts, role-play, drama and art in education, critical understanding of ICT, which enables self-adapting capacity and apply new domains of knowledge to reflect on achieved disposition for holistic development. Empathy is developed through value based lessons. Empathy is developed through value based lessons focusing on the concept to protect nature, architecture, sculpture and other cultural domain and thereby creative thinking is stirred. While transacting the lesson, students are trained to in communication skills required to articulate thoughts and ideas effectively, to present information and explanation in a well-structured and logical manner.
