

1. Improved Teaching Skills: Participants may develop or enhance their teaching skills, including lesson planning, classroom management, and instructional strategies.
2. Classroom Confidence: Through practice in a simulated environment, students may gain confidence in their ability to teach effectively in a real classroom setting.
3. Understanding of Pedagogy: The workshop can deepen students' understanding of pedagogical concepts, educational theories, and teaching methods.
4. Feedback and Reflection: Participants may receive feedback from peers and instructors, encouraging them to reflect on their teaching practices and make improvements.
5. Adaptation to Diverse Learners: Students may learn how to adapt their teaching to meet the needs of diverse learners, including those with different learning styles or special needs.
6. Technology Integration: If applicable, the workshop may help students integrate technology into their teaching methods.
7. Critical Thinking: Participants can develop critical thinking skills by evaluating and adjusting their teaching strategies based on feedback and self-assessment.
8. Classroom Management: Effective classroom management techniques may be taught to ensure a conducive learning environment.
9. Collaboration and Communication: Students may learn to work collaboratively with colleagues and communicate effectively with students and parents.
10. Assessment and Evaluation: The workshop may cover techniques for assessing and evaluating student learning.
 - As microteaching develops specific teaching skills, it helps to build confidence in teaching by practicing different microteaching skills. It helps to develop different skills.
 - It helps in overall development of students.
 - Refunds are given for improvement. Hence it is the spirit of the subtle teaching which is precise and objective from feedback.
 - Point out the good points are encouraged as well as point out the breaks and faults and give guidance to improve.
 - Therefore, the skill of micro teaching is developed in the students.
