

Shree Balasaheb Mane Shikshan Prasarak Mandal Sanchal College of Education
BEd Peth Vadgaon.

1. As our college is located in a village, farmers and poor children of the village take admission in this place.
2. Fewer students study for higher education due to agriculture and other occupations.
3. After completing graduation these students take admission with us for B.Ed
4. Students take admission in our B.Ed college to complete the qualification to become a teacher as it is a professional course but this admission rate is very less
5. B.Ed is required for a job as a school teacher so students take admission with us to complete the B.Ed course
6. Government has not recruited teachers for many years so jobs cannot be guaranteed so there is a flow of people coming to our B.Ed.
7. After B.Ed, it is necessary to go elsewhere for post-graduation, but due to many reasons such as home conditions and occupation or agriculture, these students do not go further for higher education in large numbers, so the flow for higher education has reduced.

Academic year

2018.2019= Students enrolled in college=32

2019.2020 = Students enrolled in college =40

Selection for PG =08

2020.2021= Students enrolled in college =53
