

2.1.3 Facilities of all type enrolled students

- Inclusive education at our college is an educational approach that aims to provide equal opportunities and support to all students regardless of their abilities, disabilities or differences.
- It promotes diversity, equity and accessibility in the education system.
- Inclusive education focuses on meeting the individual needs of students, creating a supportive and welcoming environment, and removing barriers to learning.
- The goal is to enable each student to participate, learn and succeed to the fullest extent of their peers.
- Our education system accommodates all types of students from different faculties, as well as students from different disciplines, as well as students with physical and mental disparities, social conditions and economic conditions.

- In our college, different schemes are implemented for such different types of students.
- After understanding the students, taking into account all the socio-economic and psychological conditions of the students, various activities are implemented to guide them properly.
- For individual guidance, 13 to 14 children are grouped into four groups each.
- There are one or two mentors for the group.
- Through these mentors, individual and collective guidance and counseling are given to the students.
- The personal and academic problems of the students are solved.
- The students have some problems in the study and teaching process as well as in the classroom in the college campus.
- The students are properly guided by the mentors to plan the solution for it.
- Due to such an environment, students can feel free to act in an independent environment.
- There is no pressure on the students.

Group Guidance

- All types of students admitted to the college are given equal opportunities.
- Everyone has the freedom to express their opinion.
- The problems in study and teaching, as well as personal and academic problems, other social, financial, as well as physical problems, if there are any problems, are guided by knowing them.
- For this, such students are always guided and counseled by the principal and all other professors in the college.
- Similarly, all the elements of the institute and the college are always ready for all kinds of development of the admitted students, for which they are frequently assisted and guided.

Group Guidance

Personal Guidance

- All types of students admitted to the college are given equal opportunities.
- Everyone has the freedom to express their opinion.
- Studying and teaching problems, as well as personal and academic problems, other social, economic, as well as physical problems, if any, are guided by knowing them.
- For this, such students are always guided and counseled by the principal and all other professors of the college.
- Also, all the elements of the institute and the college are always ready for all kinds of development of the admitted students, for this they are frequently helped and guided.
- Individual guidance is given to such students in the college.
- By knowing their personal problems, they are given proper guidance and counseling and efforts are made to solve their problems.

Personal Guidance

Discussion

- They are consulted to provide equal opportunity to all types of students admitted to our college.
- Discussions are always held with the students to establish security between them.
- Discussions are always conducted with the newly admitted students and all the students by the guidance principal and all the professors.
- In such a discussion, the problems faced by the students are known.
- Appropriate measures are taken to solve such problems.
- The college is doing its best to solve the problems of the students.

Discussion

Consensus meeting

- College always makes different efforts for all types of students.
- Efforts are made to solve the problems faced by the students.
- The problems of the students reach the head of the college through their representatives.
- For this purpose, consultation meetings are held between all the office bearers and student representatives of the college.
- In this meeting the student representative mentions the problems faced by the students and the college decides to take appropriate action to solve those problems.
- In this way, an attempt is made to solve the problems of the students through a meeting between the students and the education officials.

Consensus meeting
